

PLÜSCHIES | PLUSH-TOYS

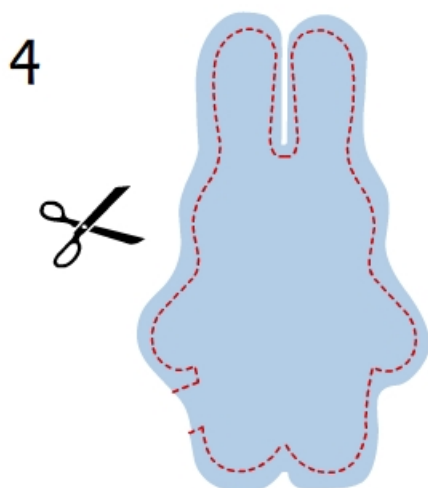

You need two pieces of fabric in the size of your desired pattern, plus possible extras like ears and eyes

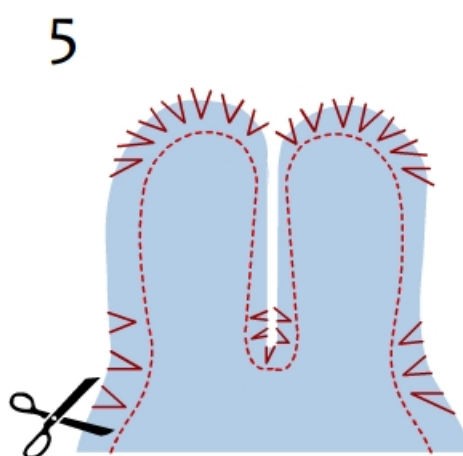

Trace all necessary patterns on left hand side of one piece of fabric.

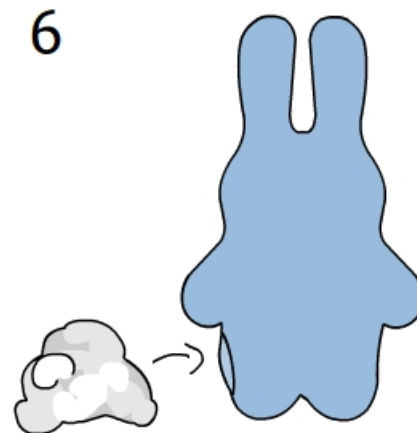

Place fabrics on top of each other with the right sides facing inside and fasten with needles.

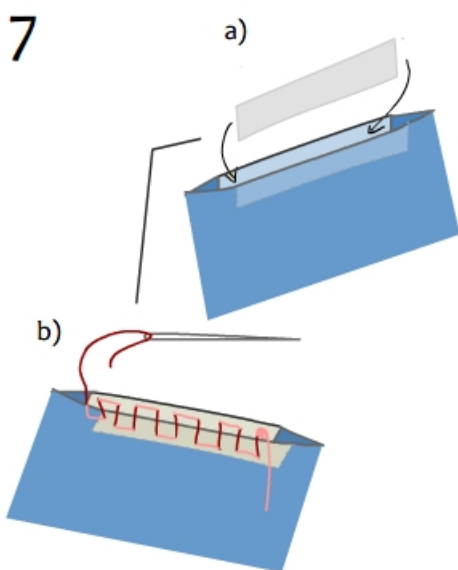

Now sew together. Remember to leave opening and trim edges afterwards.

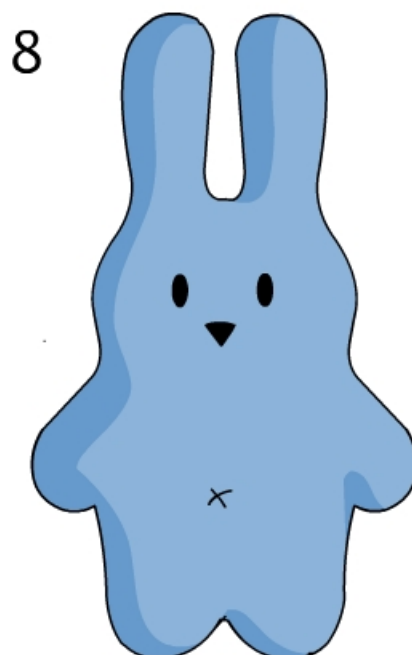

Clip into seam-allowance at tight corners. This takes away pressure from the fabric ...

...when turning inside out. Next, fill with stuffing.

Close opening:
a) fusible tape
b) blind stitch by hand

Stitch or draw eyes and nose.

Done!

You can use the patterns to make appliqués or washcloths, too.
